

CLS-408*

CLS-410

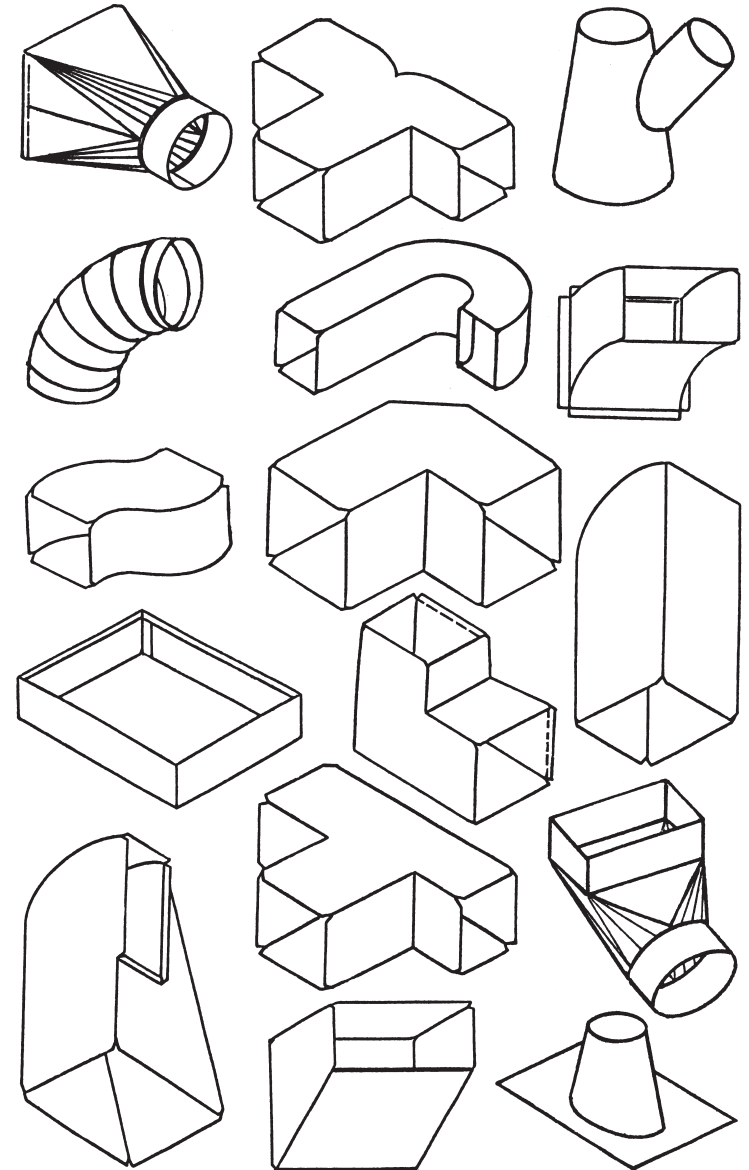

- **Savings in Scrap**
- **Savings in Time**
- **Simple Operation**
- **Low Cost**
- **Safety**
- **Portable**

Between 35% and 70%
For example: Create the patterns for an offset square to round directly on the metal in about 60 seconds, automatically aligns patterns so that most of the cutting can be done on a shear
Employees can learn to use this system in a few minutes on site
A fraction of the cost of a Plasma cutting system. No need for gas, compressed air, ventilation system or special wiring.
Uses 120 VAC, other voltages available
No poisonous fumes and no fire hazard
*Fits on a standard size pick-up**

Complete systems starting at \$9,900
